

Primary characteristics

The NAF Y-pattern Globe valves are entirely made of stainless steel. They are particularly well suited for installations in the process industry such as Pulp and Paper Mills, petro-chemical, the foods industry and other process industries and applications requiring high resistance to corrosive service.

- Integral mitre seats
- · High disc lift easy to clean
- Low pressure drop
- Disc free to move on stem

Design

The valves have a rising stem, inside screw and a rising handwheel. The bonnet is screwed into the body. The seat and the disc is contoured so that the valves can also be used for throttling service.

The bonnet is locked into the valve body to prevent unintentional unscrewing of the bonnet.

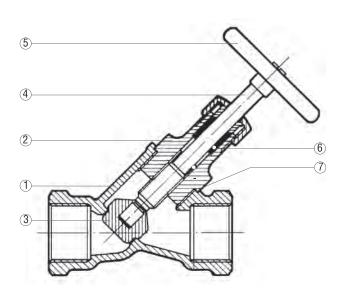

Applications

The valves are normally fitted with packings resistant to most acids and alkalis and to oil at temperatures up to 200°C. The valves can be repacked to specification for higher working pressures where conditions are less corrosive.

Not recommended for steam service.

Connections

NAF 448800, female screwed ends to R NAF 448801 has welding ends with dimensions as per the table overleaf.

NAF 448801

Working pressures and temperatures (Table 1)

| | | Max. temperature °C | | |
|-----------|-----------------------|---------------------|---------------|--|
| NAF No. | Pressure Class | 100 | 200 | |
| | | Max. pressu | ire bar gauge | |
| 448800-01 | PN 100 | 78 | 64 | |

Test pressure

Valve closed: 1.1 x PN

Valve open: 1.5 x PN, medium water

Materials (Table 2)

| Item | Part | Material |
|------|---------------|--------------------------|
| 1 | Body | Stainless steel EN1.4436 |
| 2 | Bonnet | Stainless steel EN1.4436 |
| 3 | Disc | Stainless steel EN1.4436 |
| 4 | Stem | Stainless steel EN1.4460 |
| 5 | Hand wheel | Stainless steel |
| 6* | Stuffing box | Graphite |
| 7* | Bonnet gasket | PTFE ring |

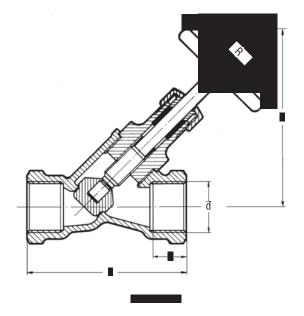

^{*} Recommended spare parts. When ordering spare parts use the designation given in the parts list above. State also NAF No., DN and "Part No." as stated on the legend plate.

Dimensions and mass (Table 3)

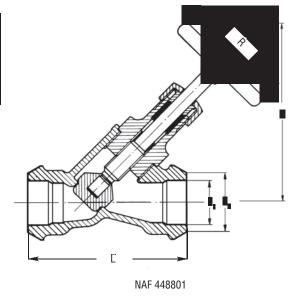

| NAF No. | DN | Bore | d | L | G | Н | R | K _v * value | Mass kg |
|---------|----|------|------|-----|----|-----|----|---------------------------|------------|
| 448800 | 8 | 12 | 1/4" | 75 | 13 | 110 | 65 | 1.5 | 0,6 |
| | 10 | 12 | 3/8" | 75 | 14 | 110 | 65 | 2.3 | 0,6 |
| | 15 | 12 | 1/2" | 75 | 18 | 110 | 65 | 2.3 | 0,6 |
| | 20 | 22 | 3/4" | 90 | 19 | 130 | 65 | 5.1 | 0,9 |
| | 25 | 22 | 1" | 100 | 23 | 140 | 65 | 9.1 | 1,3 |

(Table 4)

| NAF No. | DN | Bore | d | L | G | Н | R | K _v * value | Mass kg |
|---------|----|------|----|----|----|-----|----|---------------------------|------------|
| 448801 | 15 | 12 | 15 | 18 | 75 | 110 | 65 | 2.3 | 0,6 |
| | 20 | 12 | 20 | 23 | 75 | 110 | 65 | 5.1 | 0,6 |
| | 25 | 22 | 25 | 28 | 90 | 130 | 65 | 9.1 | 1,3 |

Dimensions in mm

Ordering example

Durban

When ordering, please state NAF No., DN (size) and valve type. For example: NAF 448800, DN 25, Y-pattern globe valve
